

## **GEOGRAPHY (Answer all)**

### **ITEM:**

East Africa has many types of vegetation covers such as equatorial rainforests, savannah vegetation and semi-desert vegetation. The vegetation covers benefit the people of East Africa in many ways. However, there are also some disadvantages of vegetation covers to the people of East Africa.

### **Task:**

- a) Make a presentation to your class about the characteristics of equatorial rainforests.
- b) Make a write up on the contribution of vegetation covers to the people of Uganda.
