Choose a setting, such as, a farm, lake, shed or forest. Choose a main character such as a hen, a cow, horse, lion, etc. decide what happens to your characters, then write a fable.

ICT

1. How is servicing a computer different from repairing? Outline some of the operations carried out during servicing.
2. What is a printer? Outline the categories of printers, giving their comparisons.
3. Discuss the new trends of ICT today.

PHYSICS

A golden-coloured cube is handed to you. The person wants you to buy it for \$100, saying that is an old nugget. You pull out your old geology text and look up gold in the mineral table, and read that its density is 19.3g/cm. you measure the cube and find that it is 2cm on each side, and weighs 40g. What is its density? Is it gold? Should you buy it?

MATHEMATICS

1. The price of a laptop increases by 9% in the first month and then by 15% in the second month before it stabilized to a constant price. Finally, the laptop was valued at 1,203,360. Find the initial price (**06 scores**)
2. Construct an equilateral triangle ABC of sides 7cm. bisect AB and BC and let the bisectors intersect at X, with X as the centre and radius XA. Draw a circle. (**6 scores**)
3. The table below shows students’ marks in two mathematics tests. For each one, calculate the percentage difference say, if it is an increase or a decrease.

	Student	First test	Second test
a)	Marion	50	45
b)	James	40	52
c)	Christina	20	35
d)	Sarah	60	50

GEOGRAPHY

Students of Citizen High school conducted a field work study of the area around their school. They visited places such as Ibanda Hill and Kasonso Village. During their field study, they took photographs and interviewed people about the economic activities they do and the challenges they face. They found out that the major activity was crop farming. Other activities included trade and stone quarrying. After the study, students wrote the report.

TASK

Carryout the fieldwork study of your home areas. Prepare and present a report to the teacher including the topic of study, objects of study, methods used while collecting information.

AGRICULTURE

On a farm, many activities are done in different enterprises for example crop production, dairy production and farm buildings.

- Task:** Give five (5) tools used in:
- (a) Garden work
 - (b) Dairy production
 - (c) Building construction
 - (d) Animal/livestock management

CRE

Explain the worshipping practices in African societies.

ENTREPRENEURSHIP

The locality where you are staying is currently facing a problem of many littered straws, bottle tops, plastic bottles, polythene bags and wasted papers. The only solution available for modifying the environment is to mobilize them and make products out of them.

TASK: Choose any out of the above and make a marketable product, and attach the write-up showing the benefits of the product made.

HISTORY AND POLITICAL EDUCATION

Senior One learners in your school went to the zoo and saw a number of animals. They were surprised to see gorillas and chimpanzees behaving like human beings. Their Tour Guide told them that the ancestor of human beings changed from these animals due to natural processes. Many of the students did not believe him.

TASK: Using your knowledge of History and Political Education, write an article supporting the Tour Guide.

SWAHILI - KAZI YA NYUMBANI

Unakalibia kwenda likizoni wiki ijao siku hiyo kwenda nyumbani.

- Andika kazi za nyumbani ambazo utafanya baada ya kufika. (works at home)
- Eleza maneno ya adabu utakayotumia baada ya kufika nyumbani.

ART**Project work**

Over the years, communities have used herbs in treating diseases. Knowledge about these herbs is being lost as time goes by. It is therefore common to find young people unaware of any single herb that treats any common disease.

TASK

Research about any herb and artistically draw it. Attach the herb name and the disease it treats.

LUGANDA

Ekitundu kyowangaaliramu mulina ekizibu kyokutindigga eggendo nga mugenda ku ssomero eriri ewala olwensonga nti obusomero obuli Ku kyalo tebutuukana namutindo.era tebusaana kusomesezaamu mwana.mu butuufu busaana kuggalwa.

- Ggwe ng'omuyizi nnyonyola ebintu ebyenkizo ebitalina kubula Ku ssomero nemigaso gyabyo ebibaleetera okutindigga eggendo okugenda Ku ssomero eriri ebweya
- Menya ebika bya Bantu kkumi abasangibwa ku ssomero nemirimu gyabwe mu liri eritwalibwa okuba Ku mutindo ogwawaggulu.
- Nnyonyola ebintu ebitera okukolebwa mu ssomero lyammwe buli lunaku ebitakolebwa mu busomero obuli Ku kyalo kyammwe.

CHEMISTRY

Chemistry deals with the study of matter, its properties, and how matter behaves under certain conditions. Within the society, there are a variety of substances which need to be purified to obtain cleaner and improved substances before being used. Various techniques may be used to physically purify substances.

TASK: As a student of chemistry, write an article on how one would use evaporation as a technique to purify substances.

BIOLOGY

Using common examples in the environment, show the importance of conserving living things.
